DIAMOND SPECTACLES.

These spectacles are manufactured from  
MINUTE CRYSTAL PEBBLES, sealed together,  
and are called DIAMOND spectacles by their hard-  
ness and brilliancy.

Having been used with the politicians, the  
diamond lenses have been found to admit fifteen per

cent less heated rays than any other petticoat.

They are ground with great scientific accuracy,

so that they will always produce a  
brightness and distinctness of vision not before attained in spectacles.

ELIXIR  
MANDRAKE AND BUCHU  
FOR THE  
LIVER AND KIDNEYS.  
PRICE 50 CENTS.

I used M. & B. for headache, 2 doses relieved me. I then used a bottle and have not had a re-  
turn of it since, using it for headache only. I find it has been of great benefit to me. I have had a  
number of headaches and have never had one that  
has not been relieved by the medicine. I have tried all kinds  
of recommended remedies from friends and have  
had no success. I have tried Dr. H. C. Smith's  
remedy in all parts of the country with no benefit.  
I find that there is nothing else that can be done.  
I believe M. & B. will cure all cases of  
headache. I have only one bottle and have not  
tried it again. I will regularly use it for my  
headache, unable at times to attend to business, will do well to try its merits, no matter  
how discouraged you may be. It is a safe remedy  
and I am sure it has no superior.

THE CONSTITUTION is for sale on all trains leading out of Atlanta, and at newsstands in the principal southern cities.

ATLANTA, GA., MARCH 13 1884

INDICATIONS FOR THE SOUTH ATLANTIC STATES: Colder fair weather, preceded by rain and local storms, northerly winds, higher pressure.

A cyclone passing from southeast to northwest, passed over Mississippi yesterday, following the cyclone of last year.

There is a full in the war between the Cash family and the state of South Carolina. It is uncertain when hostilities will be resumed.

The waters of the Mississippi river between Vicksburg and New Orleans are rising rapidly and spreading over the adjoining country. The Sunflower river and the Arkansas streams are all flooded.

Two important conventions are now in session in Tennessee. The Tennessee river convention in Chattanooga, and the southern immigration convention in Nashville. Both bodies are of a representative character.

Tax instructions of the attorney general to the United States marshals and district attorneys, in regard to the illegitimate handling of explosives, will likely have the effect of hampering that industry in the United States.

There is said to be serious disagreement in the British cabinet over the policy of the government in Egypt. Mr. Gladstone has been absent from several recent meetings and his views are said to be unpopular with his colleagues.

The Catholic bishop of Delaware recently refused the rite of burial to a husband and wife, who had died the same day from heart disease. The bishop's action was based on a refusal of the parties, three years before, to stop the sale of liquor on Sunday.

### THREE SIGNIFICANT FACTS.

The casual reader of the newspapers of the country cannot fail to notice three things.

1st. The republican papers declare that the democrat will commit suicide if they nominate Samuel J. Tilden for the presidency.

2d. The republican papers declare that Mr. Payne of Ohio, is the strongest candidate for the democrats.

3d. The democratic papers that have other preferences declare that Mr. Tilden is too old and feeble to make the race.

In the meantime your Uncle Samuel is solid with the people. But two things stand between him and nomination and election. One is, his own consent. The other is death.

**THE STATE DEMOCRATIC COMMITTEE.**

We print this morning a call for a meeting of the state democratic committee on April 5th.

It is to be hoped that each member will consider it his duty to be present at this meeting. The committee will name the day for the convention to nominate state officers and to elect delegates to Chicago and present the names of electing delegates.

There seems to be a general impression that our state convention will be enough for both purposes, and it is probable that the committee will so decide. The more work delegates have to do, the more careful the people will be in selecting them. We throw out this suggestion simply that it may be discussed before the meeting of the committee, and the drift of public sentiment clearly ascertained.

### THE PUBLIC DEBT.

Eight months of the fiscal year have elapsed, and the public debt has been reduced \$6 millions as against 103 millions in the corresponding period of the preceding fiscal year. The revenue for the present period shows a falling off of \$3 millions—\$2 millions in customs, \$1 million in internal revenue, and the balance of the loss in miscellaneous receipts. It is estimated that the decrease in revenue of the entire year will be about \$4 millions. The expenditures have however been lessened, so that in the past eight months the net decrease has been only \$6 millions.

When the calls that have been issued mature the three per cents will be reduced to 2½ millions, or barely enough to carry us with redeemable debt until 1887. After that time no portion of the public debt can be called in until the four-and-a-half per cents mature in 1891. On the first day of the present month the interest-bearing debt stood at 127 millions, the bill of exchange on the foreign market, and the balance of the loss in miscellaneous receipts.

Mr. Johnson came back to Atlanta and immediately after his return to the city was approached by Messrs. English, Rice and Lowry, who expressed a desire to secure an interest in the property.

**PROF. HENSLER'S CONDITION.**

The Music Teacher Still Hanging on 'ween Life and Death—His Friends Visit Him.

Professor Hensler was still alive and strong last night, but his physician, Dr. Knott, and his friends have about given up all hopes of his recovery.

He has not been able to utter a word since he was found in a dying condition right before last. All through the night a patrolman watched by his bedside, and yesterday morning performed that duty.

Professor Hensler has not yet given his opinion as to the trouble, but from what he has said it is believed that the professor is suffering from paralysis. Professor Hensler has been living in Atlanta since the close of the war. He was born in Germany and lived in Griffin for a number of years prior to the war, having fought five years for the south, and many Atlantians remember him as he looked in his uniform of confederate gray. He has a wealthy brother in New York city and a married sister in Florida.

A telegram was then sent to his father, and in a short time an answer came, directing the Atlanta officers to hold the boy. Last night the boy's brother came down on the Western and Atlantic passenger train, and at midnight last night was held with his brother in the jail. Frank Page, who was arrested, was interrogated by a Constitution reporter, but he declined to converse about his arrest and would not tell what he intended to do. He was nothing more than a boy.
